Article Submission Guidelines

Please prepare and submit your article following this guideline:

❖ **Submission Format**: Submit your article as an abstract.

❖ **Type of Articles**: The congress accepts original research articles, as well as review articles with novel and updated scientific content.

❖ **Abstract Specifications**:

1. The abstract must be between **150-250 words**, using **Times New Roman** font, size 10.

2. Abstracts must be submitted in Microsoft Word format (*.doc) through the congress website.

3. It is mandatory to include 1-3 references at the end of the abstract, which should be uploaded in the corresponding window when submitting the article.

4. For research articles, include the following sections in order:

   - **Title**
   - **Authors**
   - **Affiliations**
   - **Correspondence**
   - **Objective**
   - **Methods**
   - **Results**
   - **Conclusion**

   The article formatting template is available on amc2025.ui.ac.ir.

❖ **Complete Review Articles**

1. Upon acceptance of review abstract, authors may submit complete articles, with a length of 2500-3000 words, including a maximum of 5 figures and tables formatted according to the abstract guidelines.

2. Articles will be published in a collection if accepted by the review committee.

3. Abstracts and/or submitted articles must be complete and free of errors, ready for publication. Scientific, spelling, and technical errors will affect the review process, and the congress bears no responsibility for correcting potential issues.

❖ **Important Notes**:

1. The determination of the presentation format (poster or oral) is solely the responsibility of the scientific committee and the policy council.

2. A presenter may submit one to a maximum of two articles, either as a poster or an oral presentation.

3. The corresponding author must be a faculty member or a technical expert from the relevant industrial unit, and the presenter must register for the congress.

4. Presentations of posters and articles must be in person, and the policy council may consider other presentation methods, including virtual formats, and will promptly inform participants of any new possibilities.

5. All accepted articles will be presented in the corresponding proceedings booklet as PDF files after the congress.

6. When submitting an article on the congress website, ensure the authors' information is correctly registered and that the article file is uploaded accurately.

7. Researchers should note that this congress does not accept abstracts and articles generated by artificial intelligence. Additionally, articles must not be copied and pasted from other sources.

8. Using software like LIP (Language Interface Pack) or other proofreading software can help authors with text proofreading.

9. Articles will be reviewed by the scientific committee and the congress reviewers, and the results will be communicated through the congress website.
